Technical Skills

JavaScript, CSS3, HTML5, Node, Express, MySQL, MongoDB, jQuery, Handlebars, Bootstrap, Foundation, GitHub

Projects

Weather Dashboard
Repository: https://github.com/hannahj25/weather-dashboard
Deployed website: https://hannahj25.github.io/weather-dashboard/

- Basic weather app
- Provides current and forecasted weather information for cities searched for by user. Cities are saved to a search history so their information can be brought up again with a just a click.
- Tools/Languages: HTML5, CSS, JavaScript, jQuery, Bootstrap, Moment.js, OpenWeather API

Word Generator
Repository: https://github.com/Mattdsena/GroupProject
Deployed website: https://mattdsena.github.io/GroupProject/

- This app generates random words and their definitions, and allows the user to save them to a list.
- I collaborated on this project along with three classmates. My tasks were focused on the JavaScript portion, including coding the WordsAPI call and saving data to local storage.
- Tools/Languages: HTML5, CSS, JavaScript, jQuery, Foundation, WordsAPI, Spotify API

Code Quiz
Repository: https://github.com/hannahj25/code-quiz
Deployed website: https://hannahj25.github.io/code-quiz/

- Presents a simple quiz of coding questions
- With this app the user can take a timed quiz, and save their score at the end.
- Tools/Languages: HTML5, CSS, JavaScript, Bootstrap
